

Aisha Hussein

Full Stack Developer

✉ ayumeyra11@gmail.com ☎ +251961512854 📍 Addis Abeba 🌐 LinkedIn 🐙 github

SUMMARY

Full-Stack Developer with hands-on experience building web applications using React, Next.js, Node.js, Express, and MySQL. Experienced in developing responsive interfaces, REST APIs, authentication, and database-driven features. Built and contributed to real-world projects across travel, community platforms, food discovery, and AI-powered applications.

PROFESSIONAL EXPERIENCE

UnlockGen Initiative, *Full-Stack Developer* 02/2026 – 03/2026 | remote

- Developed a travel-focused AI application using **React**, integrating **AWS Bedrock Agents** for conversational travel assistance.
- Built and integrated **AWS Lambda** functions to support travel search workflows and connect application features with AI services.

Kuraz Technologies, *Frontend Developer Intern* 07/2025 – 08/2025 | Addis Ababa

- Developed responsive interfaces for web applications using **React.js**, focusing on reusable components and clean UI implementation.
- Built features for **Foodie Finder**, integrating external APIs with search, filtering, and responsive layouts.

EDUCATION

Arsi University 🎓, *Bachelor of Science in Computer Science* 01/2023 – 06/2026

Relevant coursework: Data Structures and Algorithms, Object-Oriented, Programming, Database management system, Software Engineering Systems, Fundamental of Networking

SKILLS

Languages (javascript, Python, SQL, HTML/CSS) | **Frameworks & Libraries:** (React.js, Next.js, Nest.js, Express.js, Node.js, Typescript, Tailwind CSS, Shadcn) |

Databases (MySQL, PostgreSQL, MongoDB,) | **Developer Tools & Technologies** (Docker, Git, GitHub,)

PROJECTS

Smart Support App 🎓, *Full-Stack Customer Support Platform* 05/2026 – 06/2026

- Built a customer support application with a **React/Tailwind CSS** frontend and **Node.js/Express** backend for managing support requests and user interactions.
- Integrated **MongoDB** for data persistence and developed REST APIs for handling application data and support workflows.

Foodie Finder 🎓, *React Web Application* 07/2025 – 07/2025

- Developed a responsive food and recipe discovery application using **React.js and Tailwind CSS**, integrating TheMealDB API.
- Implemented search, category filtering, dynamic content, and responsive layouts.
